

AFTER SCHOOL PROGRAM

The St. James After School Program has been established in recognition and realization of the serious need for quality child care during the after school hours of 2:00PM to 5:30PM. The After School Program provides St. James students with a pleasant and secure environment under the supervision and guidance of a trained professional staff. The After School Program helps promote, within a home-like atmosphere, friendship, concern for others, and a strong sense of Christianship and love.

THE STAFF

The St. James After School Program staff is one of the greatest assets of the program with its children being the other! The program is run by Susan Nealy, an experienced Director (and St. James athletic coach). Mrs. Nealy is supported by one other adult assistant director and numerous program aides.

The staff is available from 10:45AM until 5:30PM, Monday through Friday to address any inquiries about the program. Please feel free to call them at 375-1367 or 375-5994.

AFTER CARE PROGRAM—11:00 AM TO 2:00 PM

The After Care Program provides day care for preschoolers enrolled in our four-year-old program whose parents are unable to pick them up at the 11:00AM dismissal. The children engage in free play activities and some group games and projects. They have lunch period, story time and a brief rest period each day. This program is run by the After School Director and an Assistant Director.

Children in the After Care Program may stay for the After School Program from 2:00PM to 5:30PM or they may be picked up or ride the bus at 2:00PM dismissal in the After School room.

THE AFTER SCHOOL PROGRAM—2:00 PM TO 5:30 PM

Students enrolled in the After School Program are involved in activities throughout their stay, including arts and crafts activities, group games and special events. The group occasionally takes class trips on their half days. In the past, they've visited such places as the roller skating rink, the bowling alley and the movie theater. There is an additional charge for these trips and parental permission is required.
